

Covid-19 Update

A Statement from the directors of Compost London CIC.

Dear Voluntary and Community Sector colleagues and members of the Newham ESOL Exchange network,

Like many organisations, Compost London and Newham ESOL Exchange are currently working remotely and will continue to do so whilst advised to during the coronavirus pandemic. We want to do what we can to support voluntary and community sector organisations and groups during these extraordinarily difficult times and will continue to work on all projects that don't involve face-to-face contact.

As recommended, we have suspended our regular face-to-face ESOL assessments and have either cancelled workshops or plan to deliver them online, we will be in touch to let you know how this affects you.

We will continue to send out communication with updates from our colleagues in the voluntary, community and public sectors, and from funders as we are able, and are exploring ways we can support the wider sector at this time. If you have any suggestions or contributions please let us know. Meanwhile if you need to contact us you can do so in the usual ways:

Newham ESOL Exchange: esolexchange@compostlondon.org.uk

Compost London: info@compostlondon.org.uk

Thanks for your ongoing support, patience, and understanding at this time,

Anne, Briony, Caroline and Chelle (Directors of Compost London CIC)
